Sub: Request for seed money – Effect of Loading Rates on Compressive Strength - Reg.

Dear Sir,

Subject: Request for Seed Funding to Design and Develop a Working Project i.e., Effect of Loading Rates on Compressive Strength

I am writing to request seed funding for an innovative project that aims to design and develop Effect of Loading Rates on Compressive Strength. The primary objective of this project is to create a fully functional working model that investigates how different loading rates applied by hand-operated and machine-operated machines impact the measured compressive strength of concrete or other materials. Analyze the rate-dependent behavior and its implications for design and testing standards.

To successfully accomplish this project, we have outlined the following estimated budget requirements:

1. conducting in-depth research,
2. necessary components, specialized equipment and
3. Prototyping the model.

Total Funding Requested: 29,500/-

Thank you for considering our request for seed funding. We look forward to your positive response.

  
Sincerely,

Mr. A. Sai Kumar

**OFFICE ORDER**

With reference to your application Dated-2/12/2022 for financial assistance through R&D, seed funding for the current academic year 2022-23 for the Civil Engineering Department, I am happy to convey on the recommendation of Concrete Technology & Transportation Engineering (Servicing, Repair, Replacement of two Bosch pump and release wall, calibration of both 1000kN (hand operated) & 2000kN (machine operated) compressive testing machines). The total grant of the project will be Rs.29,500/- Kindly communicate and submit the acceptance letter duly signed by the principal investigator and the head of the department.

Dear Sir,

**Sub: Purchase Order for Environmental Engineering Lab chemicals-Reg.,**

**Ref: Your Quotation dt. 08-02-2022**

With reference to the quotation cited above, we are pleased to place the purchase order for supply environmental engineering lab chemicals to our Godavari Institute of Engineering and technology(A), Rajamahendravaram, East Godavari district, AP. The details are as follows:

| o | Description                                    | Unit Cost(Rs) | Quantity | Total Cost |
|---|------------------------------------------------|---------------|----------|------------|
|   | Potassium chromate ( $K_2CrO_4$ ) indicator    | 1160          | 1        | 1160       |
|   | Silver Nitrate $AgNO_3$ 0.0141 N               | 820           | 1        | 820        |
|   | EDTA(Ethylene Diamine tetra acetic acid) 0.01M | 400           | 1        | 400        |
|   | Ammonia buffer solution                        | 260           | 1        | 260        |
|   | EBT(Erichrome Black T indicator)               | 350           | 1        | 350        |
|   | Sodium Hydroxide (NaOH) 2N                     | 300           | 1        | 300        |

Sub: Request for seed money –Microprocessor-Based Multifunctional Data Logger and Analyzer - Reg.

Dear Sir,

Subject: Request for Seed Funding to Design of Microprocessor-Based Multifunctional Data Logger and Analyzer

I am writing to request seed funding for an innovative project that aims to design and develop a working model of Microprocessor-Based Multifunctional Data Logger and Analyzer

The primary objective of this project is to create a fully functional working model that demonstrate and create a network of smart devices, sensors, actuators, and other objects that can communicate, exchange, and analyze data without requiring direct human intervention. Gathering data from various sensors and devices to monitor and track the status of physical objects, environments, or processes.

To successfully accomplish this project, we have outlined the following estimated budget requirements:

1. conducting in-depth research,
2. necessary components, specialized equipment and
3. Prototyping the model.

Total Funding Requested: [Rs. 2,88,987]

Thank you for considering our request for seed funding. We look forward to your positive response.

Sincerely

Mr.D.VijendraKumar

Respected sir,

Sub: Requisition for patent publication amount – Reg/-

With reference to the above subject, this is to bring to your kind notice that we have 24 papers that can be submitted to patent office for possible publication. The cost for publication of each patent is Rs. 10000 as quoted by patent agent. It is difficult for our faculty to bear this amount for the publication. I request you to consider providing the amount for publication of 24 patents with our institution's affiliation.

Yours sincerely

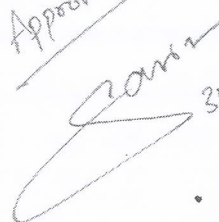

Head of The Department

Subject: Request for SEED money for Procurement of essential chemicals & Glassware

I am reaching out to humbly request SEED funding for the procurement of essential lab equipment (UPS) for the academic journey of our first-year engineering students. Your generous support in this matter would greatly enhance the learning experience and practical skills of our aspiring engineers.

We kindly seek your assistance to provide the necessary resources, ensuring our students have access to a well-equipped laboratory environment. Your contribution will undoubtedly play a pivotal role in their educational development and future success.

Thank you for considering our request, and we sincerely appreciate your ongoing commitment to nurturing the growth and potential of our students.

Seed Money Amount: 3,86,000

  
Warm regards,

Mrs. S.S. Sailaja

Sub: Request for seed money - Wastewater Treatment and Nutrient Removal- Reg.

Dear Sir,

Subject: Request for Seed Funding to Design and Develop a Working Research Project  
i.e., Wastewater Treatment and Nutrient Removal

I am writing to request seed funding for an innovative project that aims at Wastewater Treatment and Nutrient Removal. The primary objective of this project is to research advanced wastewater treatment methods using chemicals such as coagulants, flocculants, and disinfectants. Explore innovative techniques for nutrient removal (nitrogen and phosphorus) from municipal and industrial wastewater to mitigate eutrophication in receiving water bodies.

**OR**

The model will serve as a practical and educational tool for our engineering students, enabling them to gain hands-on experience and insights into innovative techniques for nutrient removal (nitrogen and phosphorus) from municipal and industrial wastewater to mitigate eutrophication in receiving water bodies.

To successfully accomplish this project, we have outlined the following estimated budget requirements:

1. conducting in-depth research,
2. necessary components, specialized equipment and
3. Prototyping the model.

Total Funding Requested: Rs. 5,784/-

Thank you for considering our request for seed funding. We look forward to your positive response.

  
Sincerely,

Ms. N. G. Sri Sindhusa

## OFFICE ORDER

With reference to your application Dated-28/01/2022 for financial assistance through R&D, seed funding for the current academic year 2021-22 for the Civil Engineering Department, I am happy to convey on the recommendation of Environmental Engineering Lab (chemicals). The total grant of the project will be Rs 5,784/- Kindly communicate and submit the acceptance letter duly signed by the Principal Investigator and the Head of the Department.

Sub: Request for seed money –AM Radio Receiver with Mixer Analysis - Reg.

Dear Sir,

Subject: Request for Seed Funding to Design of AM Radio Receiver with Mixer Analysis

I am writing to request seed funding for an innovative project that aims to design and develop a working model of **AM Radio Receiver with Mixer Analysis**

The primary objective of this project is to developing an AM radio receiver while focusing on mixer characteristics, utilizing digital storage oscilloscope, function generators, and basic electronic components.

To successfully accomplish this project, we have outlined the following estimated budget requirements:

1. conducting in-depth research,
2. necessary components, specialized equipment and
3. Prototyping the model.

Total Funding Requested: [Rs.509590]

Thank you for considering our request for seed funding. We look forward to your positive response.

Sincerely,

Mrs.S.Suneetha

Sub: Request for seed money –Frequency Synthesis and Harmonic Analysis using  
Function Generators - Reg.

Dear Sir,

Subject: Request for Seed Funding to Design of Frequency Synthesis and Harmonic Analysis using Function Generators

I am writing to request seed funding for an innovative project that aims to design and develop a working model of Frequency Synthesis and Harmonic Analysis using Function Generators

The primary objective of this project is to utilize function generators to synthesize and analyze frequencies, investigating harmonic relationships and their implications in electronic circuits..

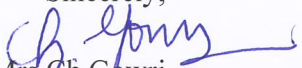

To successfully accomplish this project, we have outlined the following estimated budget requirements:

1. conducting in-depth research,
2. necessary components, specialized equipment and
3. Prototyping the model.

Total Funding Requested: [Rs.1,53,262]

Thank you for considering our request for seed funding. We look forward to your positive response.

## OFFICE ORDER

With reference to your application Dated 18/02/2022 for financial assistance through R&D, seed funding for the current academic year 2021-22 for the Electronics and Communication Engineering Department, I am happy to convey on the recommendation of Electronic Devices and Circuits Lab . The total grant of the project will be Rs.1,53,262  
/- Kindly communicate and submit the acceptance letter duly signed by the principal investigator and the head of the department.

Subject: Request for SEED money for Procurement of Chemistry lab Equipments

I am reaching out to humbly request SEED funding for the procurement of Chemistry lab Equipments, which are imperative for the academic journey of our first-year engineering students. Your generous support in this matter would greatly enhance the learning experience and practical skills of our aspiring engineers.

We kindly seek your assistance to provide the necessary resources, ensuring our students have access to a well-equipped laboratory environment. Your contribution will undoubtedly play a pivotal role in their educational development and future success.

Thank you for considering our request, and we sincerely appreciate your ongoing commitment to nurturing the growth and potential of our students

  
Sincerely,

Mr.D.Anjibabu

## **OFFICE ORDER**

With reference to your application Dated-26-12-21 for financial assistance through R&D, seed funding for the current academic year 2021-22 for the Engineering Chemistry Laboratory DEPARTMENT OF HUMANITIES & BASIC SCIENCES, I am happy to convey on the recommendation of Procurement of essential chemicals & Glassware. The total grant of the project will be Rs.44347/- Kindly communicate and submit the acceptance letter duly signed by the principal investigator and the head of the department.

Subject: Request for SEED money for Procurement of Physics lab Equipments

I am reaching out to humbly request SEED funding for the procurement of Physics lab Equipments, which are imperative for the academic journey of our first-year engineering students. Your generous support in this matter would greatly enhance the learning experience and practical skills of our aspiring engineers.

We kindly seek your assistance to provide the necessary resources, ensuring our students have access to a well-equipped laboratory environment. Your contribution will undoubtedly play a pivotal role in their educational development and future success.

Thank you for considering our request, and we sincerely appreciate your ongoing commitment to nurturing the growth and potential of our students.

SEED MONEY REQUESTED :Rs.66,733/-

  
Warm regards,  
Dr. V SARATH CHANDRA

Sub: Release of purchase order for the supply of Physics Lab Equipment's – Reg.

Dear Sir,

With reference to the above we are pleased to release the following purchase order for the supply of Physics lab equipment's to the institute, Godavari Institute of Engineering and Technology (A) Rajamahendravaram and the details are as follows

| S. No | Item Description               | No . of Units | Unit Price | Total Cost After Discount |
|-------|--------------------------------|---------------|------------|---------------------------|
| 1     | Thermistor KIT                 | 2             | 3500       | 5950                      |
| 2     | Zener diode                    | 2             | 2600       | 4420                      |
| 3     | P N junction Diode             | 2             | 3500       | 5950                      |
| 4     | Energy Band gap calculations   | 1             | 3500       | 2975                      |
| 5     | Four Probe KIT                 | 2             | 14,439     | 24546                     |
| 6     | Sodium Vapor lamp              | 2             | 5,000      | 9000                      |
| 7     | Stewarts and Gees apparatus    | 2             | 3100       | 5270                      |
|       | Total amount                   |               |            | 58,111                    |
|       | Total amount including GST 18% |               |            | 68,571                    |

Price : Rs.68,571.00  
Delivery : Within a week  
Payment : 50% advance and balance amount will be paid through online after delivery, installation and checking the goods count . The Service shall be extended throughout the warranty period, whenever the complaint is raised

Sub: Request for seed money – Custom IC Layout Design using Mentor Graphics HEP1  
Tanner Tool - Reg.

Dear Sir,

Subject: Request for Seed Funding to Design of Custom IC Layout Design using Mentor  
Graphics HEP1 Tanner Tool

I am writing to request seed funding for an innovative project that aims to design  
and develop a working model of **Custom IC Layout Design using Mentor Graphics  
HEP1 Tanner Tool**

The primary objective of this project is to Creating custom integrated circuit (IC) layouts  
with precise control over components and connections using Mentor Graphics HEP1  
Tanner Tool.

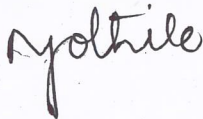

To successfully accomplish this project, we have outlined the following estimated  
budget requirements:

1. Conducting in-depth research,
2. Necessary components, specialized equipment and
3. Prototyping the model.

Total Funding Requested: [Rs.3,40,194]

Thank you for considering our request for seed funding. We look forward to your  
positive response.

Sincerely,  
Mrs.K.Jyothi

Sub: Request for seed money –" **Analog and Digital Filter Design Exploring Signal Filtering Using Digital Storage Oscilloscope**"- Reg.

Dear Sir,

Subject: Request for Seed Funding to Design of "**AM Radio Receiver with Mixer Analysis Exploring Signal Filtering Using Digital Storage Oscilloscope**"

I am writing to request seed funding for an innovative project that aims to design and develop a working model of "**Analog and Digital Filter Design: Exploring Signal Filtering Using Digital Storage Oscilloscope**"

The primary objective of this project is to create circuits that modify the frequency content of a signal in a controlled manner. These filters are used to pass certain frequency components while attenuating or blocking others.

To successfully accomplish this project, we have outlined the following estimated budget requirements:

1. conducting in-depth research,
2. necessary components, specialized equipment and
3. Prototyping the model.

Total Funding Requested: [Rs. 2,47,564]

Thank you for considering our request for seed funding. We look forward to your positive response.

Sub: Purchase order for supply of ECE lab Components and consumables – Reg.  
Ref: Quotation received from Arihant Electronics.

With reference to the cited, we are pleased to place the purchase order for supply of laboratory components and consumables to the Dept. of ECE, Godavari Institute of Engineering and Technology (GIET), Rajamahendravaram, East Godavari District, AP and the details are as follows:

| Sl. No. | Description                     | Quantity  | Unit Cost (in Rs.) | Total Cost (in Rs.) |
|---------|---------------------------------|-----------|--------------------|---------------------|
| 1       | Soldering lead 50g              | 2         | 55                 | 110                 |
| 2       | Insulation tape                 | 5         | 10                 | 50                  |
| 3       | Holding blade                   | 6         | 5                  | 30                  |
| 4       | CRO Probe wire (Mike cable)     | 40 meters | 30                 | 1200                |
| 5       | PCB board cleaner 500 ml        | 2         | 90                 | 180                 |
| 6       | Silk wire for CRO probes        | 20 meters | 10                 | 200                 |
| 7       | POWER CARDS 2PIN                | 10        | 40                 | 400                 |
| 8       | Multi lead wire for patch cards | 30        | 6                  | 180                 |
| 9       | Patch card pins                 | 100       | 8                  | 800                 |
| 10      | 3pin female JST(XH) connector   | 5         | 50                 | 250                 |
| 11      | Voltage regulator 7806          | 10        | 15                 | 150                 |
| 12      | UJT 2N2646                      | 20        | 120                | 2400                |
| 13      | FET BFW10                       | 20        | 140                | 2800                |
| 14      | FET BFW11                       | 20        | 150                | 3000                |
| 15      | 7490 (DSD & DICA, DC LABS)      | 30        | 30                 | 900                 |

Rajahmundry.

Dear Sir,

Subject: Request for Seed Funding to Testing of DC Equipment-reg.

I am writing to request seed funding for an innovative project that aims to testing of a DC equipment in Machines Laboratory.

The primary objective of this project is to load testing of DC machine is needed to determine the rating of a machine. When we run a machine, then some energy is lost in the machine, which converts into the heat and cause temperature rise. If a machine produces too much heat then it can affect the insulation of the machine and ultimately it can cause the breakdown of the machine. Therefore, the load must be set to a value that it can operate within the temperature limit. The maximum value of the load that can be delivered by the machine without any harm is called the continuous rating of that machine.

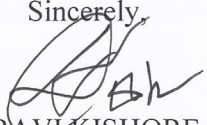

To successfully accomplish this project, we have outlined the following estimated budget requirements:

1. conducting in-depth research,
2. necessary components, specialized equipment and
3. Prototyping the model.

Total Funding Requested: Rs. 1,10,330

Thank you for considering our request for seed funding. We look forward to your positive response.

Subject: Request for SEED money for Procurement of Physics lab Equipments

I am reaching out to humbly request SEED funding for the procurement of Physics lab Equipments, which are imperative for the academic journey of our first-year engineering students. Your generous support in this matter would greatly enhance the learning experience and practical skills of our aspiring engineers.

We kindly seek your assistance to provide the necessary resources, ensuring our students have access to a well-equipped laboratory environment. Your contribution will undoubtedly play a pivotal role in their educational development and future success.

Thank you for considering our request, and we sincerely appreciate your ongoing commitment to nurturing the growth and potential of our students.

Request for SEED MONEY FUNDING:2,93,135/-

Warm regards,  
Dr.V.Sarath Chandra

Sub: Request for seed money –**Sustainability and Environmental Impact** - Reg.

Dear Sir,

Subject: Request for Seed Funding to Sustainability and Environmental Impact through AVEVA Solutions- Regarding

I am writing to request seed funding for an innovative project that aims at Sustainability and Environmental Impact through AVEVA Solutions. The primary objective of this project is to create a fully functional working model that demonstrates role of AVEVA's commercial agreements in promoting sustainability practices within industries by enabling better resource management, reduced waste, and energy efficiency.

**OR**

The model will serve as a practical and educational tool for our engineering students, enabling them to gain hands-on experience and insights into analyzing the Sustainability and Environmental Impact through AVEVA Solutions. Research the role of AVEVA's commercial agreements in promoting sustainability practices within industries by enabling better resource management, reduced waste, and energy efficiency.

To successfully accomplish this project, we have outlined the following estimated budget requirements:

1. conducting in-depth research,
2. necessary components, specialized equipment and
3. Prototyping the model.

Total Funding Requested: Rs. 3,58,720/-

Thank you for considering our request for seed funding. We look forward to your positive response.

  
Sincerely,

Dr. D. Venkateswarlu

## OFFICE ORDER

With reference to your application Dated-6/10/2019 for financial assistance through R&D, seed funding for the current academic year 2019-20 for the Civil Engineering Department, I am happy to convey on the recommendation of AVEVA lab (license). The total grant of the project will be Rs.3,58,720/- Kindly communicate and submit the acceptance letter duly signed by the principal investigator and the head of the department.

# AVEVA COMMERCIAL AGREEMENT

Initial/Annual Model (continues)

In addition to Software Licence Fees, Customer shall pay applicable taxes, including Goods and Services Tax (GST) and other taxes which may be levied by Central and State Government with respect to software supplied by AVEVA pursuant to this Agreement. Customer shall be responsible for and comply with GST. For the purpose of this clause, GST shall mean applicable Central Goods and Service Tax (CGST), State Goods and Service Tax (SGST), Union Territory Goods and Service Tax (UTGST), and Integrated Goods and Service Tax (IGST) as may be leviable.

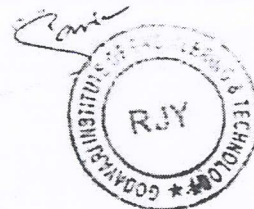

|                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|-----------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Purpose of Use                    | Teaching materials for educational purpose only.<br><br>Notwithstanding anything to the contrary herein contained, in the event Customer uses or allow to use or subject to be used, directly or indirectly, the Software or any part thereof, for any purpose other than as specified herein and/or that the Software is used by any person other than the Users, without prejudice to AVEVA's right to claim against Customer any damages or losses suffered by AVEVA, AVEVA shall be entitled, at AVEVA's option, to terminate this Agreement summarily by notice in writing to Customer upon which Clause 9.3 of EULA shall apply, and to impose Software Licence Fees at no lesser than the latest software price list, in which event Customer shall forthwith pay the said Software Licence Fees as may be notified in writing by AVEVA. |
| Support and Maintenance           | Details of the support and maintenance included free of any additional charge can be found on the AVEVA website - <a href="http://www.aveva.com/policies">www.aveva.com/policies</a> . Further support and maintenance will be charged for under a separate agreement.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| Payment Term                      | Customer must pay Software Licence Fees immediately upon its receipt of AVEVA's invoice.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| Interest                          | AVEVA may charge interest on overdue amounts at a rate of 10% per annum.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| Increase in Software Licence Fees | AVEVA may review and increase the Fees, provided that such charges cannot be increased more than once in any twelve month period and that the amount of any increase is not more than the increase in the CPI index from the Ministry of Labour as published by the Government of India. AVEVA shall give the Customer written notice of any such increase three months before the proposed date of that increase.                                                                                                                                                                                                                                                                                                                                                                                                                              |

## AVEVA COMMERCIAL AGREEMENT

1) The parties hereby agree that:

(a) the Customer's use of the Software shall be governed by the terms of the End User Licence Agreement ("EULA") in the form that can be found at [www.aveva.com/policies/eula/en](http://www.aveva.com/policies/eula/en) and available on request from AVEVA.

(b) the Customer shall comply with AVEVA's Ethical Trading policy which can be accessed via the AVEVA website [www.aveva.com/policies/ethical/en](http://www.aveva.com/policies/ethical/en).

2) This Agreement (including reference to the appendices, information contained in a URL or referenced policy), together with the EULA is the complete agreement for the Software and supersedes all prior or contemporaneous agreements or representations, written or oral, regarding the Software. It is expressly agreed that the terms of this Agreement and of the EULA shall supersede the terms of any purchase order or other non AVEVA ordering document and no terms included in any such purchase order or other non AVEVA ordering document shall apply to the Software ordered.

3) No variation to the terms of this Agreement shall be effective unless it is in writing and signed by the parties (or their authorised representatives).

4) Any dispute arising out of or in connection with this Agreement, including any question regarding its existence, validity or termination, shall be referred to and finally resolved by arbitration in Mumbai in accordance with the Indian Arbitration and Conciliation Act 1996 and amendments thereof for time being in force, which rules are deemed to be incorporated by reference in this clause. The arbitration tribunal shall consist of three arbitrators. The language of the arbitration shall be English. The governing law of this Agreement shall be the substantive law of India. Nothing in this clause will preclude a party's recourse to a court of competent jurisdiction to: (a) enforce the terms of, or an arbitration award under, this clause; or (b) seek temporary equitable relief necessary to protect its interests.

5) AVEVA and its Affiliates shall be entitled to state in the public domain that the Customer is a customer of AVEVA's. With Customers prior written consent AVEVA may issue a press release or other public statement regarding this Agreement. AVEVA and the Customer shall work together to agree any press statement. Unless notified otherwise, all marketing enquiries shall be sent to marketing contact details on the first page of this Agreement.

Sub: Request for seed money – Performance Evaluation of Soil Drying Process - Reg.

Dear Sir,

Subject: Request for Seed Funding to Design and Develop a Working Research Project  
i.e., Performance Evaluation of Soil Drying Process Using Electrical Hot Air Oven

I am writing to request seed funding for an innovative project that aims at  
Performance Evaluation of Soil Drying Process Using Electrical Hot Air Oven

The primary objective of this project is to create a fully functional working model that demonstrates the investigation of the drying characteristics of different types of soils using an electrical hot air oven. Measure the moisture content reduction rates, energy consumption, and drying efficiency for various soil types at different temperatures and drying durations. This project could contribute to optimizing soil drying processes in construction and agricultural applications.

**OR**

The model will serve as a practical and educational tool for our engineering students, enabling them to gain hands-on experience and insights into optimizing soil drying processes in construction and agricultural applications.

To successfully accomplish this project, we have outlined the following estimated budget requirements:

1. conducting in-depth research,
2. necessary components, specialized equipment and
3. Prototyping the model.

Total Funding Requested: Rs.1,02,164/-

Thank you for considering our request for seed funding. We look forward to your positive response.

## **OFFICE ORDER**

With reference to your application Dated-13/07/2018 for financial assistance through R&D, seed funding for the current academic year 2018-19 for the Civil Engineering Department, I am happy to convey on the recommendation of Soil Mechanics Lab (Electronic weighing machine 30kgs, Electrical Hot Air Oven, Liquid Limit Device, Vane Shear Apparatus). The total grant of the project will be Rs.1,02,164/- Kindly communicate and submit the acceptance letter duly signed by the principal investigator and the head of the department.
