## **IEEE INTERNATIONAL CONFERENCE ON Vision Towards Emerging Trends IN Communication and Networking 2019 (ViTECoN'19)**

**At**

**VIT Vellore**

**On 30 and 31<sup>st</sup> March 2019**

### **1. Keynote Addresses:**

ViTECoN'19 commenced with keynote addresses by renowned experts in the field of communication and networking. These speakers shared their profound insights and experiences, setting the tone for the conference.

### **2. Technical Paper Presentations:**

The heart of the conference was the presentation of technical papers. Researchers from around the world presented their latest findings and research contributions in various tracks, including but not limited to:

Communication Protocols

Network Security

Wireless Communications

Internet of Things (IoT)

Artificial Intelligence in Networking

5G and Beyond

### **3. Workshops and Tutorials:**

The conference featured workshops and tutorials that provided attendees with in-depth knowledge and practical skills in emerging areas of communication and networking technologies.

### **4. Poster Sessions:**

A dedicated poster session allowed researchers to showcase their work visually and engage in discussions with conference attendees, fostering collaboration and knowledge exchange.

## 5. Panel Discussions:

Several panel discussions addressed contemporary issues and future directions in communication and networking, featuring experts from academia and industry.

## 6. Networking Opportunities:

ViTECoN'19 offered numerous networking opportunities, enabling participants to connect with fellow researchers, potential collaborators, and industry representatives.

### Outcomes and Impact:

The IEEE ViTECoN'19 conference had several notable outcomes and impacts:

**Knowledge Dissemination:** Researchers and participants gained insights into the latest developments and research trends in communication and networking.

**Research Collaboration:** The conference facilitated collaboration and knowledge exchange among researchers from diverse backgrounds and institutions.

**Emerging Trends:** Attendees gained a deeper understanding of emerging technologies such as 5G, IoT, and AI's impact on communication and networking.

**Networking:** Participants established valuable connections with peers, mentors, and potential partners, fostering future collaborations and research opportunities.

**Publication Opportunities:** High-quality research papers presented at the conference were published in IEEE Xplore, contributing to the global body of knowledge.

### Conclusion:

The IEEE International Conference on Vision Towards Emerging Trends in Communication and Networking 2019 (ViTECoN'19) was a resounding success, serving as a hub for knowledge exchange, research collaboration, and exploration of cutting-edge technologies in the field of communication and networking. The event not only contributed to the professional growth of participants but also advanced the state of the art in the domain. We look forward to future editions of ViTECoN,

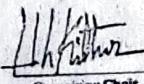

**IEEE International Conference on Vision  
Towards Emerging Trends in Communication  
and Networking 2019 (ViTECoN'19)**

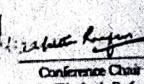

IEEE Conference Record No: 45748

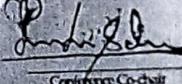

**CERTIFICATE OF PARTICIPATION**

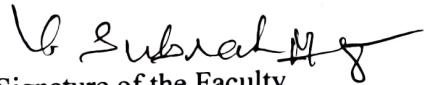

This is to certify that Dr./Mr./Ms. Subramanyam V  
has participated/presented the paper titled Detection of fits Seizure  
by Alexa Using IoT

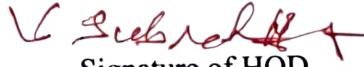

in ViTECoN'19 in association with IEEE Madras Section, Organized by the  
School of Electronics Engineering (SENSE), Vellore Institute of Technology,  
Vellore - 632014, Tamil Nadu, India on 30<sup>th</sup> & 31<sup>st</sup> March 2019.

**1. Keynote Addresses:**

The event commenced with insightful keynote addresses by prominent industry experts and thought leaders. These speakers shared their experiences and insights into the evolving landscape of digital design, 3D modeling, and related technologies.

**2. Technical Workshops and Sessions:**

A series of technical workshops and sessions were conducted throughout the event. These sessions covered a wide range of topics, including:

Digital Design Techniques: Presentations and hands-on sessions on digital design tools and methodologies.

3D Modeling and Simulation: Workshops on 3D modeling software and techniques.

IoT and Embedded Systems: Discussions on the integration of digital designs with the Internet of Things (IoT) and embedded systems.

Virtual Reality (VR) and Augmented Reality (AR): Explorations of VR and AR applications in digital design.

**3. Project Showcases:**

Participants had the opportunity to showcase their digital design projects, providing a platform for sharing innovations and receiving feedback from peers and experts.

**4. Networking Opportunities:**

The event facilitated networking among participants, allowing them to connect with professionals, mentors, and potential collaborators in the field.

## 5. Panel Discussions:

Panels were organized to discuss current trends, challenges, and future prospects in digital design and 3D modeling. Participants engaged in meaningful discussions and gained valuable insights.

## 6. Student Competitions:

To encourage student participation and innovation, the event featured competitions where students could showcase their skills and creativity in digital design.

**Directorate of Research Consultancy**

**Dates of FDP: 10/08/2018 to 14/08/2018**

## Report on Faculty Development Program

It brings me great pleasure to present a comprehensive report on the Faculty Development Programme (FDP) organized by GITAM School of Gandhian Studies and Directorate of Research Consultancy, held from 10-08-2018 to 14-08-2018. The FDP was conducted by the Department of Humanities and Basic Sciences and focused on the topic of "Improvement of Pedagogical Skills Through ICT". I had the privilege of attending all seven days of this workshop, from beginning to end.

I must say that it was an invigorating experience that rekindled my passion for learning and teaching. The first inaugural session set a positive tone for the entire program, with participants being provided with a conducive environment for interactive learning. Throughout the course, we were fortunate to have expert resource persons who shared their knowledge in an innovative and inspiring way.

The organizers ensured that all participants were comfortably accommodated and well-fed throughout the duration of the workshop. The food served was not only delicious but also healthy, which is a rare combination in such events.

Overall, I found every session to be informative, engaging, and practical. The FDP not only enriched my understanding of Faculty Development Programme on Improvement of Pedagogical Skills Through ICT but also equipped me with new skills and techniques to enhance my teaching potential. I am grateful for this opportunity and would highly recommend similar programs to my colleagues in academia.

## Report on Faculty Development Program

It is a matter of great honour to present a comprehensive report on the Faculty Development Programme (FDP) organized by Swarnandhra College of Engineering and Technology, Naraspur, held from 23-10-2018 to 27-10-2018. The FDP was conducted by the Department of Computer Science Engineering and focused on the topic of "on Product Development on 3D Experience." I had the privilege of attending all days of this workshop, from beginning to end.

We got a nice experience that it was an invigorating experience that rekindled my passion for learning and teaching. The first inaugural session set a positive tone for the entire program, with participants being provided with a conducive environment for interactive learning. Throughout the course, we were fortunate to have expert resource persons who shared their knowledge in an innovative and inspiring way.

The organizers ensured that all participants were comfortably accommodated and well-fed throughout the duration of the workshop. The food served was not only delicious but also healthy, which is a rare combination in such events.

Overall, we found every session to be informative, engaging, and practical. The FDP not only enriched my understanding of 3D technological resources but also equipped me with new skills and techniques to enhance my teaching potential. We are grateful for this opportunity and would highly recommend similar programs to the colleagues in academia.

We would like to express our sincerest gratitude to the management and academic administrators for their unwavering encouragement and support. With their backing, we are confident that this undertaking will mark a new epoch in the realm of teaching and learning. We vow to make strides towards a paradigm shift that will revolutionize the way education is imparted and received. Our commitment to this cause is resolute, and we look forward to seeing the fruits of our labor.

### About the Institute

Ideal Institute of Technology, located on Main Road, Ideal College Road, Vidyut Nagar, Kakinada - 533003, is a prominent institution dedicated to technological education. You can reach them at STD - 0884.2363345 or via email at [principal@idealtech.edu.in](mailto:principal@idealtech.edu.in). The institution operates under the governance of the Governing Body of Ideal College of Arts and Science, Kakinada, which shares the same address at Main Road, Ideal College Road, Vidyut Nagar, Kakinada - 533003, situated in the East Godavari District. The institution is under the capable leadership of Dr. T. Srikanth, who serves as the Principal of Ideal Institute of Technology and can be contacted at Mobile: 9948179610 or via email at [principal@idealtech.edu.in](mailto:principal@idealtech.edu.in). Furthermore, Ideal Institute of Technology is affiliated with the prestigious JNT University Kakinada, located in Kakinada-533003, ensuring a high-quality educational experience for its students.

### About the FDP

The "Fuzzy-Based Random Pulse Width Modulation (PWM) Technique for Performance Improvement of Induction Motors" is a promising innovation in motor control. This approach combines fuzzy logic, known for its adaptability, with random PWM to enhance the performance of induction motors. By employing fuzzy logic, the system adjusts PWM signals dynamically, optimizing motor efficiency and reducing energy consumption. Random PWM injects variability into the control, reducing harmonic distortion and improving motor behavior. This synergy results in improved motor performance, reduced heat generation, and enhanced energy efficiency, making it particularly relevant for industrial applications. Further research and experimentation may unveil its full potential, making it a noteworthy advancement in motor control technology.

### Topics Include

1. Induction Motors: Overview
2. Pulse Width Modulation (PWM) in Motor Control
3. Fuzzy Logic Control: Fundamentals
4. Fuzzy-Based Random PWM for Induction Motor Control
5. Performance Improvement Metrics

### How to register?

A DD of Rs. 500 is to be taken in favour of The Principal, IDEAL INSTITUTE OF TECHNOLOGY. Registration form (Filled and duly signed) should be sent along with the DD to The HOD, Department of EEE, IDEAL INSTITUTE OF TECHNOLOGY Main Road, Ideal College Road, Vidyut Nagar, Kakinada - 533003. STD - 0884.2363345

### Contact details

Mr. A Ramesh - 9886668231

Professor & HOD, Dept. of EEE

Mrs. K Suneetha - 9963421464

Asst Professor, Dept. of EEE

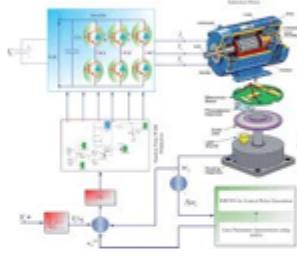

### Accommodation

Accommodation will be provided on chargeable basis on prior request in the institute. The participants will not be paid any TA/DA. Course materials, working lunch and refreshments will be provided.

## **Brief Report of the Event:**

The title "Fuzzy-Based Random Pulse Width Modulation Technique for Performance Improvement of Induction Motor" suggests that this report focuses on a control strategy for improving the performance of induction motors using a fuzzy-based random Pulse Width Modulation (PWM) technique. Below, I'll provide you with an outline to structure your report:

Title: Fuzzy-Based Random Pulse Width Modulation Technique for Performance Improvement of Induction Motor

### Table of Contents:

#### Introduction

- 1.1 Background and Motivation
- 1.2 Purpose of the Report
- 1.3 Scope and Objectives
- 1.4 Research Methodology

## Induction Motors: Overview

- 2.1 Working Principles of Induction Motors
- 2.2 Importance and Applications
- 2.3 Challenges in Controlling Induction Motors
- 2.4 Need for Performance Improvement

## Pulse Width Modulation (PWM) in Motor Control

- 3.1 Basic Principles of PWM
- 3.2 Role of PWM in Motor Control
- 3.3 Traditional PWM Techniques
- 3.4 Advantages and Limitations

## Fuzzy Logic Control: Fundamentals

- 4.1 Introduction to Fuzzy Logic
- 4.2 Fuzzy Logic Control (FLC) in Motor Control
- 4.3 Advantages of Fuzzy Logic Control

## Random Pulse Width Modulation (PWM)

- 5.1 Introduction to Random PWM
- 5.2 Applications of Random PWM
- 5.3 Benefits and Challenges

## Fuzzy-Based Random PWM for Induction Motor Control

- 6.1 Integration of Fuzzy Logic and Random PWM
- 6.2 Design and Implementation
- 6.3 Advantages of Fuzzy-Based Random PWM

## Performance Improvement Metrics

- 7.1 Factors Affecting Induction Motor Performance
- 7.2 Metrics for Evaluating Performance Improvement
- 7.3 Simulation and Experimental Setup

## About College

Pragati Engineering College, Surampalem was established in 2001 by the Gayatri Educational Society. The Institute is placed in an area of 25 acres of land giving wide academic and infrastructural facilities. It is affiliated to the Jawaharlal Nehru Technological University, Kakinada, accredited by NAAC and approved by AICTE.

## About FDP

- >Sun-Earth Geometry
- >Solar Radiation
- >Solar Collectors
- >Solar Thermal Storage
- >Solar Energy Utilization
- >Nano Fluids in Solar Applications
- >Solar Radiative Cooling Technologies
- >Solar Desalination
- >Solar Thermal Power Generation
- >Solar Poly-generation
- >Modeling and Simulation of Solar Thermal Systems

## Eligibility

This program is designed for all faculty members and research scholars of all departments from all institutions and Industry persons.

>> Registration fee.

>> Participation Certificate will be provided for those who complete session.

>> Register on or before 10/06/2019.

## Brief Report of the Event:

A report on solar thermal energy can cover a wide range of topics related to this renewable energy source. Here, I'll provide an outline and key points that you can expand upon to create a comprehensive report on solar thermal energy. Please note that you can add more specific information and data based on your research and the scope of your report.

Key Points to Include:

Solar thermal energy harnesses the sun's heat to produce electricity and provide heat for various applications.

Types of solar thermal systems include Concentrated Solar Power (CSP) and solar water heating. Solar thermal systems consist of collectors, heat transfer fluids, thermal storage, and heat exchangers.

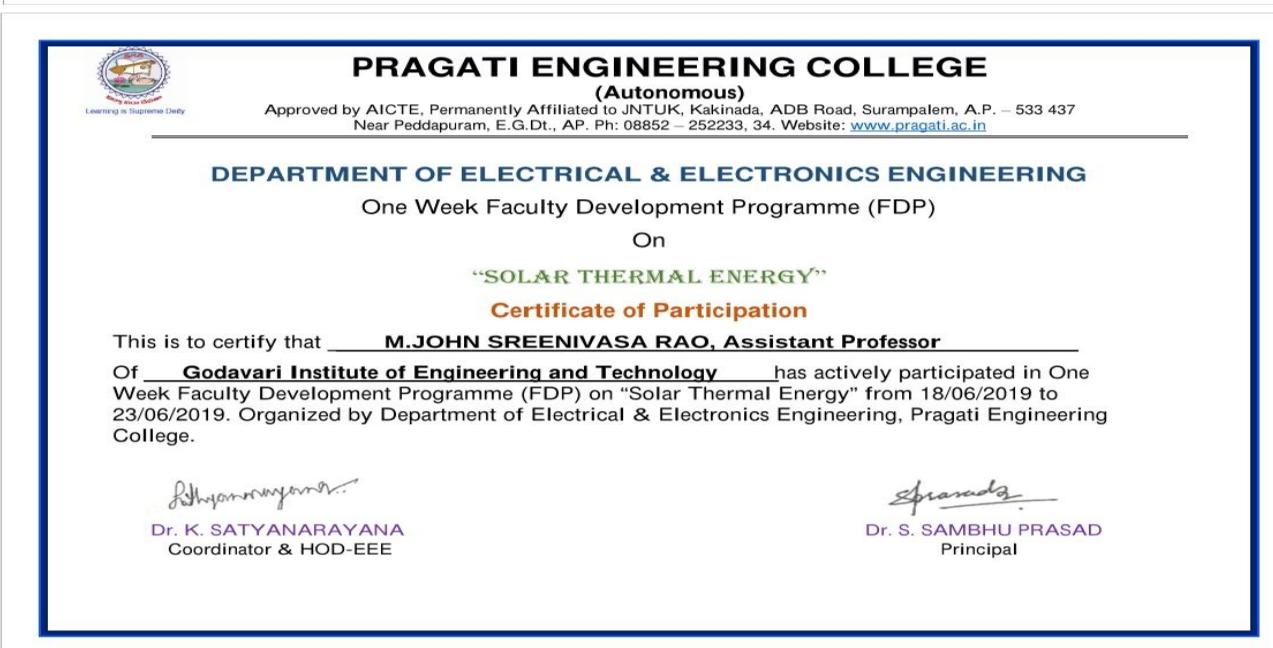

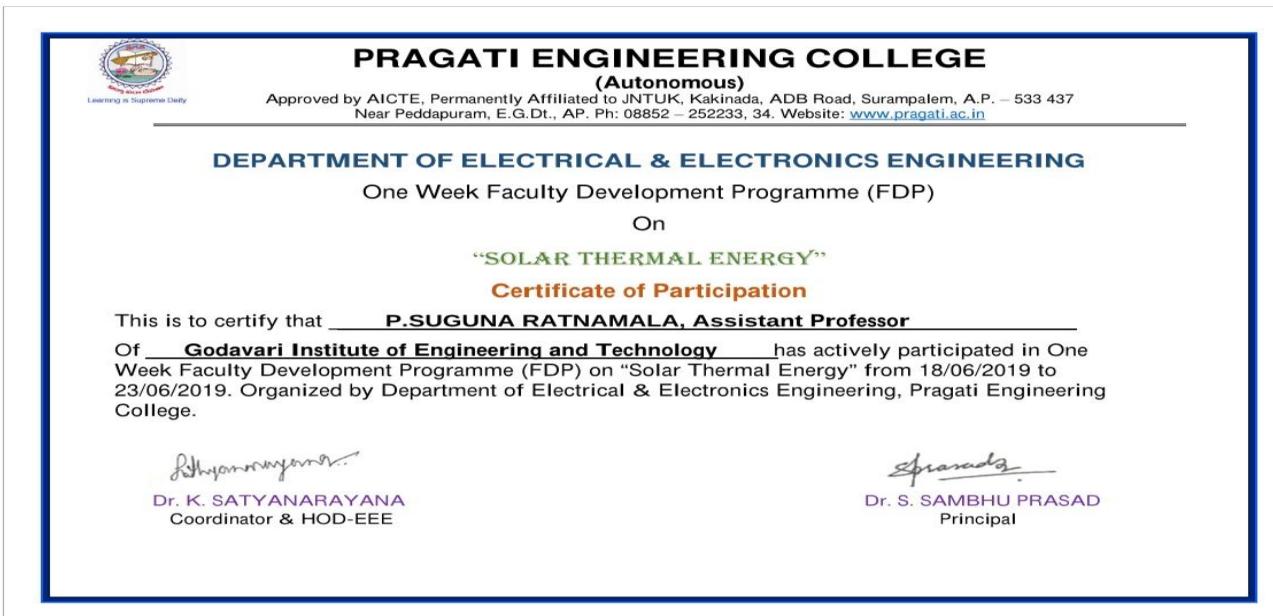

Applications of solar thermal energy range from electricity generation to water heating, industrial processes, and space heating/cooling.

Various solar thermal technologies, such as parabolic trough systems and solar power towers, exist. The global solar thermal energy market is influenced by market trends, drivers, challenges, and regional differences.

Solar thermal energy offers environmental benefits, including reduced greenhouse gas emissions. Barriers to adoption include high initial costs and intermittency.

Case studies of successful solar thermal projects demonstrate its real-world applications. The future of solar thermal energy depends on technological advancements, policy support, and integration with other renewables.

Ensure that you back up your report with credible sources and up-to-date data to make it informative and authoritative. Additionally, consider including charts, graphs, and images to illustrate key points and make the report more engaging for your audience.

## Section 1

### VITECON-2019 International Conference:

The International Conference on Vision towards Emerging Trends in Communication and Networking (VITECON-2019) is the premier forum for the presentation of new advances and research results in the fields of Electronics and Communication Engineering. The conference will bring together leading researchers, engineers and scientists in the domain of interest from around the world.

**Objectives of the program** : All papers must be original and not simultaneously submitted to another journal or conference. Papers are invited from research scholars, academics and industry professionals. The manuscript should contribute original research ideas, new technological development, detailed result analysis, and insightful findings. Papers submitted to the conference should be in English. Submissions should contain original work that has not been published previously, accepted for publication, or presently under consideration for publication elsewhere. Papers submitted to the conference should follow the IEEE double-column format and not exceed 6 pages.

Organization of Event : VITECON-2019

For whom : Faculty & Students from various Colleges

Organizing team : VIT Vellore Institute of Technology

## **REPORT ON**

### **“Indian Geotechnical Conference 2018” GEOLEAP-Geotechnico: Learning, Evaluation, Analysis and practice**

Dates:13-12-2018 to 15-12-2018

#### **Organized by**

Indian Geotechnical Conference IGC 2018, 13-15 Dec IISc Bengaluru.  
About IGC 2018 Indian Geotechnical Society (IGS) was established in the year .

### About the Venue

The conference will take place at the J N Tata Auditorium of Indian Institute of Science (IISc), Bengaluru, India. IISc is a premier institution of higher learning in the country and is well known world over for its academic contributions. IISc celebrated its centenary during 2008-2009. The institute is situated at northern part of Bengaluru in a sprawling campus of 420 acres. It is well known for its flora with thousands of varieties of trees, plants and flowers.

Bengaluru, situated at about 900 m above sea level, is known for its salubrious climate and greenery and is popularly known as the Garden City of India. It is the fastest growing city in Asia and is a hub for high technology industries. Weather in the month of December is expected to be pleasant in Bengaluru. The maximum day temperature can be 27°C and night temperature can be 15°C.

Bengaluru, is connected by air, rail and road to all major cities of the country and has direct international connections to many cities worldwide. Some of the many interesting destinations in and around Bengaluru are – Nandi Hills, Mysore, Hampi, Belur, Halebidu, Coorg, Shravanabelagola, Bijapur, Badami, Pattadakal, Ahole, Sringeri and Jog falls.

### Conference Themes

- Characterization of Geomaterials and Physical modelling
- Foundations
- Slope stability and Landslides
- Retaining structures, Dams and Embankments
- Sustainability and Geoenvironmental engineering
- Soil dynamics and Earthquake geotechnical engineering

- Rock Engineering, Tunnelling and Underground structures
- Problematic Soils and Ground Improvement
- Transportation geotechnics
- Computational, Analytical and Numerical modelling
- Forensic geotechnical engineering and Case studies
- Geotechnical Engineering Education and Codal practice

### Key Dates

Abstract submission: 15 April 2018  
 Intimation of abstract acceptance: 15 May 2018  
 Submission of full-length papers: 15 July 2018  
 Intimation of full-length paper acceptance: 16 August 2018  
 Submission of camera ready papers: 30 September 2018  
 Registration of accepted papers: 31 October 2018  
 Conference: 13-15 December 2018

### Registration Fees

Delegate category	Up to 31st Oct 2018 (INR)	After 31st Oct 2018 (INR)	Foreign delegate (USD)
IGS member	6000	7000	300
Non-IGS member	7000	8000	350
SAARC country delegate	7000	8000	-
Student/ Senior citizen/ Accompanying person	3000	3500	200

**ABOUT THE CONFERENCE**

Indian Geotechnical Society (IGS) was established in the year 1948. The aim of the Society is to promote co-operation among the engineers and scientists for the advancement and dissemination of knowledge in the field of Geotechnical Engineering. Indian Geotechnical Conference (IGC) is the annual conference of the Society and an eagerly awaited event looked forward by its members and the geotechnical community as a whole. IGC-2008 at Bangalore was a Grand Finale to the Diamond Jubilee celebrations of IGS. IGC-2018 will be a special event since it coincides with the Platinum Jubilee Celebrations of IGS (70th year).

**HISTORY OF IGS BENGALURU CHAPTER**

Indian Geotechnical Society Bengaluru Chapter has a long history of having started as The Mysore Centre of Soil Mechanics and Foundation Engineering at UVCE, Bengaluru University in 1964. With advent of time, the above Centre was renamed as Karnataka Geotechnical Centre (KGC) Bengaluru and became a local chapter of Indian Geotechnical Society (IGS). The Chapter earned great recognition in the field of Geotechnical Engineering nurtured by the outstanding commitment to the society and profession by several of its esteemed members. Several members of the Chapter have served the national body (IGS) as presidents and executive committee members and delivered IGS annual lectures. IGS Bengaluru Chapter hosted the Asian Regional Conference (ARC) in 1975 and Indian Geotechnical conferences (IGC) in 1961, 1975, 1987, 1995 and 2008, Asian International Young Geotechnical Engineers Conference (AYGEC) 2008, International Seminar on Forensic Geotechnical Engineering in 2013, International Conference on Soil and Environment and International Conference on Forensic Geotechnical Engineering in 2016. The Chapter organizes B.K. Ramiah Memorial Lecture annually as a mark of respect to its founder. The Chapter also holds T.S. Nagaraj Memorial Lecture bi-annually and many other technical activities.

## **REPORT ON**

One week Faculty Development Program on "BIM (Building Information Modeling)  
Implementation for Civil Engineering Educators"

Dates: 2nd – 7th July, 2018

### **Organized by**

IDEAL INSTITUTE OF TECHNOLOGY, KAKINADA Approved by AICTE New Delhi,  
Affiliated to JNTUK, Kakinada.

The organizers ensured that all participants were comfortably accommodated and well-fed throughout the duration of the workshop. The food served was not only delicious but also healthy, which is a rare combination in such events.

Overall, we found every session to be informative, engaging, and practical. The FDP not only enriched my understanding of Advancements in BIM but also equipped me with new skills and techniques to enhance our Carrier. we grateful for this opportunity and would highly recommend similar programs to our colleagues in academia.

we would like to express my sincerest gratitude to the management and academic administrators for their unwavering encouragement and support.

A Report on

### **FACULTY DEVELOPMENT PROGRAMME**

Organized by  
**Ideal Institute of Technology Kakinada**

Dates of FDP: 13/08/2018 to 18/08/2018

## Report on Faculty Development Program

It brings me great pleasure to present a comprehensive report on the Faculty Development Program (FDP) organized by Ideal Institute of Technology Kakinada, held from the 13<sup>th</sup> of August 2018 to the 18<sup>th</sup> of August 2018. The FDP was conducted by the Department of Electronics and Communication Engineering and focused on the topic of "Recent development in Antennas & Application". I had the privilege of attending all six days of this workshop, from beginning to end.

I must say that it was an invigorating experience that rekindled my passion for learning and teaching. The first inaugural session set a positive tone for the entire program, with participants being provided with a conducive environment for interactive learning. Throughout the course, we were fortunate to have three expert resource persons who shared their knowledge in an innovative and inspiring way.

The organizers ensured that all participants were comfortably accommodated and well-fed throughout the duration of the workshop. The food served was not only delicious but also healthy, which is a rare combination in such events.

Overall, I found every session to be informative, engaging, and practical. The FDP not only enriched my understanding of new skills and techniques to enhance my teaching potential. I am grateful for this opportunity and would highly recommend similar programs to my colleagues in academia.

I would like to express my sincerest gratitude to the management and academic administrators for their unwavering encouragement and support. With their backing, we are confident that this undertaking will mark a new epoch in the realm of teaching and learning. We vow to make strides towards a paradigm shift that will revolutionize the way education is imparted and received.

Dates of FDP: 08/10/2018 to 12/10/2018

## Report on Faculty Development Program

It brings me great pleasure to present a comprehensive report on the Professional Development Program (PDP) organized by Ideal College of Engineering (A) Kakinada, held from the 08<sup>th</sup> of October 2018 to the 12<sup>th</sup> of October 2018. The FDP was conducted by the Department of Electronics and Communication Engineering and focused on the topic of "**Peer Evaluation & Observation**". I had the privilege of attending all five days of this workshop, from beginning to end.

I must say that it was an invigorating experience that rekindled my passion for learning and teaching. The first inaugural session set a positive tone for the entire program, with participants being provided with a conducive environment for interactive learning. Throughout the course, we were fortunate to have three expert resource persons who shared their knowledge in an innovative and inspiring way.

The organizers ensured that all participants were comfortably accommodated and well-fed throughout the duration of the workshop. The food served was not only delicious but also healthy, which is a rare combination in such events.

Overall, I found every session to be informative, engaging, and practical. The PDP not only enriched my understanding of new skills and techniques to enhance my teaching potential. I am grateful for this opportunity and would highly recommend similar programs to my colleagues in academia.

I would like to express my sincerest gratitude to the management and academic administrators for their unwavering encouragement and support. With their backing, we are confident that this undertaking will mark a new epoch in the realm of teaching and learning. We vow to make strides towards a paradigm shift that will revolutionize the way education is imparted and received.

REPORT ON

Three months certification course in NPTEL

Organized by NPTEL, SWAYAM, IIT- KHARGPUR & MADRAS

Date: Jan- Mar - 2019

Course: Embedded System Design with ARM & Introduction to Research

Speakers: 1. Prof. B K Gandhi, Professor, Department of ECE, IIT Khargpur.  
2. Dr Nibedita Bisoyi, coordinator, NPTEL, local chapter

Participants: Faculty members from other institutes

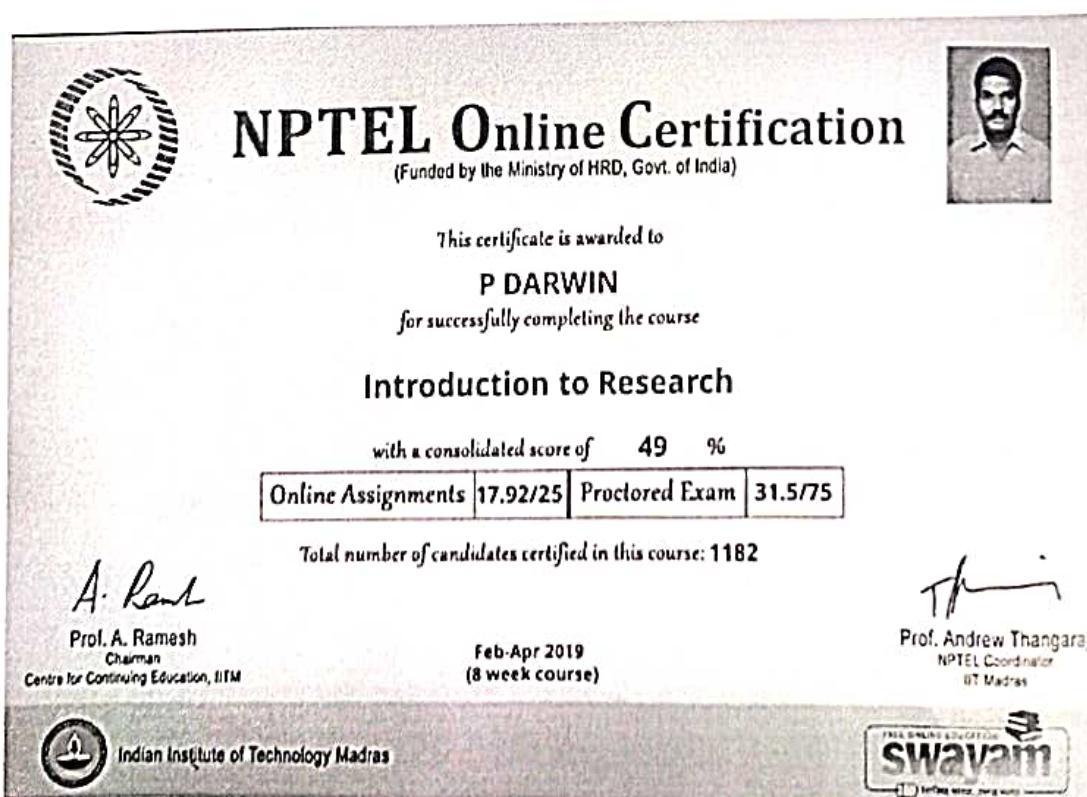

SWAYAM is a programme initiated by Government of India and designed to achieve the three cardinal principles of Education Policy viz., access, equity and quality. The objective of this effort is to take the best teaching learning resources to all, including the most disadvantaged.

SWAYAM seeks to bridge the digital divide for students who have hitherto remained untouched by the digital revolution and have not been able to join the mainstream of the knowledge economy. All the courses are interactive, prepared by the best teachers in the country and are available, free of cost to any learner. More than 1,000 specially chosen faculty and teachers from across the country have participated in preparing these courses. The courses hosted on SWAYAM are in 4 quadrants – (1) video lecture, (2) specially prepared reading material that can be downloaded/printed (3) self-assessment tests through tests and quizzes and (4) an online discussion forum for clearing the doubts. Steps have been taken to enrich the learning experience by using audio-video and multi-media and state of the art pedagogy / technology.

The first meeting of the constituted coordinators was conveyed by the Principal on 17-07- 2017 .The coordinators where briefed about their role and responsibility by the Principal. The department-wise coordinators are requested to identify the course from the swayam list, which will enrich and strengthen the knowledge of the students in their respective programme. A request for local chapter is submitted to the NPTEL coordinator, IIT, Khargpur. The application of local chapter was approved on 20-12-2018 by the NPTEL coordinator, IIT, Khargpur.

Following that SGC has been listed out as an active chapter in the swayam portal.

For the sessions Jan-Mar – 2019. The students and staff submitted the assignments as per the course requirement. Of the registered candidates 5 of participants had enrolled for the exams scheduled on 26th April 2019. We had successfully completed.

The following faculties are attended:

S. No	Faculty Name	Name of Course	Signature of faculty
1	P. VENKATRAO	Embedded System Design with ARM	P. Venkatesh
2	P. DARWIN	Introduction to Research	P. Q

### Certification Course in Databases Design & Programming with SQL Offered by ORACLE Academy

**Date: 28-06-2019**

**AUTONOMOUS**  
NAAC 'A+' INSTITUTION

**GODAVARI INSTITUTE OF ENGINEERING &  
TECHNOLOGY (AUTONOMOUS)**

Chaitanya Knowledge City, NH-16, Rajahmundry 533296, AP

## **Brief Report of the FDP**

We are pleased to present a report on our participation in the "Certification Course in Database Design & Programming with SQL" offered by ORACLE Academy. This informative course was held on June 28, 2019, at Aditya Engineering College, Surampalem. We, representing GIET(A), are grateful for the opportunity to attend this workshop and would like to extend our thanks to the management and principal for their support.

The course aimed to provide a solid understanding of database design and programming using SQL (Structured Query Language). Here's what we learned on each day:

**Introduction to Databases:** We got to know what databases are and why they are important.

**Basics of SQL:** We started learning SQL, the language used to interact with databases.

**Database Design:** We learned how to design a database structure, which is like creating a blueprint.

**Creating Tables:** We saw how to make tables in a database to store data.

**Inserting Data:** We practiced adding data into our database tables.

**Querying Data:** We learned how to ask questions to the database and get answers.

**Updating Data:** We found out how to modify data already in the database.

**Deleting Data:** We learned to remove data from the database when we don't need it anymore.

**Database Security:** We discussed keeping our data safe and who can access it.

**Exam:** We took the certification exam to test our knowledge.

**Certificates:** We received certificates to show that we successfully completed the course.

### **What We Learned:**

During the course, we learned how databases work, how to design them, and how to use SQL to interact with them. We can now create databases, put data in them, ask them questions, and keep the data safe. We also earned a valuable certification from ORACLE Academy.

We want to express our gratitude to the management and principal of GIET(A) for giving us the chance to attend this course. Learning about databases and SQL is crucial in today's world, and this opportunity will help us in our future studies and careers.

In conclusion, the "Certification Course in Database Design & Programming with SQL" was a fantastic learning experience for our group. We are thankful for the opportunity and support, and we look forward to applying our newfound knowledge in our academic and professional journeys.

## Database Design and Programming with SQL – Course Description

### Overview

This course engages students to analyze complex business scenarios and create a data model—a conceptual representation of an organization's information. Participants implement their database design by creating a physical database using SQL. Basic SQL syntax and the rules for constructing valid SQL statements are reviewed. This course culminates with a project that challenges students to design, implement, and demonstrate a database solution for a business or organization.

### Available Curriculum Languages:

- English, Simplified Chinese, Brazilian Portuguese, Spanish

### Duration

- Recommended total course time: 180 hours\*
- Professional education credit hours for educators who complete Oracle Academy training: 60

\* Course time includes instruction, self-study/homework, practices, projects, and assessment

### Target Audiences

#### Educators

- College/university faculty who teach computer programming, information communications technology (ICT), or a related subject
- Secondary school teachers who teach computer programming, ICT, or a related subject

#### Students

- Students who wish to learn the techniques and tools to design, build and extract information from a database
- Students who possess basic mathematical, logical, and analytical problem-solving skills
- Novice programmers, as well as those at advanced levels, to learning the SQL Programming language to an advanced level

### Prerequisites

#### Required

- Ease with using a computer
- General knowledge of databases and query activity

#### Suggested

- None

### Suggested Next Courses

- Database Programming with PL/SQL

## **Brief Report of the FDP**

We are delighted to present a comprehensive report on our participation in the "Faculty Development Program on Introduction to Machine Learning and its Applications." This enlightening program was conducted from July 16, 2018, to July 21, 2018, at Ideal Institute of Technology, Kakinada. We, representing GIET(A), would like to express our gratitude for the opportunity to attend this workshop and for the support provided by the management and principal of our institution.

The Faculty Development Program aimed to equip educators with a profound understanding of Machine Learning (ML) and its diverse applications. The primary objectives of the program were as follows:

- To provide educators with the fundamental concepts and principles of ML.
- To explore the practical applications of ML across various domains.
- To facilitate hands-on learning experiences, enabling participants to apply ML techniques.
- To promote collaboration and knowledge sharing among faculty members from different institutions.

The program was thoughtfully organized, offering a structured curriculum that covered various aspects of ML and its applications. Here are the highlights, listed by topic:

### **Day 1 (July 16, 2018):**

Introduction to Machine Learning: Fundamentals of ML, supervised vs. unsupervised learning, and types of ML algorithms.

### **Day 2 (July 17, 2018):**

Linear Regression: In-depth study of linear regression and its applications.

Logistic Regression: Exploring logistic regression for classification tasks.

### **Day 3 (July 18, 2018):**

Decision Trees and Random Forests: Understanding decision tree algorithms and ensemble methods.

Clustering Algorithms: Introduction to clustering algorithms like K-means and hierarchical clustering.

### **Day 4 (July 19, 2018):**

Natural Language Processing: NLP techniques and applications, including sentiment analysis and text classification.

### **Day 5 (July 20, 2018):**

Neural Networks: Fundamentals of neural networks and deep learning.

Convolutional Neural Networks (CNNs): Exploring CNNs for image classification.

### **Day 6 (July 21, 2018):**

Guest Lectures: Expert speakers sharing insights into the latest research and industry applications of ML.

Hands-On Workshops: Practical sessions on implementing ML algorithms and projects.

Throughout the program, we had the privilege of attending informative sessions, participating in discussions, and engaging in hands-on workshops. These activities deepened our understanding of ML and its wide-ranging applications, enabling us to apply these principles effectively in both teaching and research.

We extend our sincere gratitude to the management and principal of GIET(A) for their unwavering support and encouragement. It is through their foresight and commitment to faculty development that we had the opportunity to participate in this prestigious Faculty Development Program. Such initiatives play a vital role in enhancing the knowledge and skills of faculty members, ensuring that we can provide the highest quality education to our students.

The "Faculty Development Program on Introduction to Machine Learning and its Applications" was an enriching experience for our group, and we are thankful for the opportunity to attend. We are confident that the knowledge and insights gained during this program will significantly contribute to our professional growth and positively impact the quality of education at GIET(A).

## REPORT ON

### One Week Faculty Development Program on Machine Learning and Its Real Time Applications

Date (s): 27-08-2018 to 01-09-2018

**GODAVARI INSTITUTE OF ENGINEERING & TECHNOLOGY (AUTONOMOUS)**

Chaitanya Knowledge City, NH-16, Rajahmundry 533296, AP

### **Brief Report of the FDP**

We are pleased to submit a comprehensive report on our participation in the "One-Week Faculty Development Program on Machine Learning and Its Real-Time Applications." This enlightening program took place from August 27, 2018, to September 1, 2018, at Pragati Engineering College, Surampalem. We, representing GIET(A), would like to extend our heartfelt gratitude for the opportunity to attend this workshop and for the support provided by the management and principal of our institution.

The Faculty Development Program aimed to empower educators with an in-depth understanding of Machine Learning (ML) and its real-time applications. The primary objectives of the program were as follows:

To provide educators with a comprehensive knowledge of ML fundamentals.

To explore the practical applications of ML in real-world scenarios.

To facilitate hands-on learning experiences, enabling participants to apply ML techniques to real-time problems.

To encourage collaboration and knowledge sharing among faculty members from different institutions.

#### **Program Highlights:**

The program was thoughtfully organized, offering a structured curriculum that covered various aspects of ML and its real-time applications. Here is the schedule, listed by topic:

#### **Day 1 (August 27, 2018):**

Introduction to Machine Learning: Basics of ML, supervised vs. unsupervised learning, and types of ML algorithms.

#### **Day 2 (August 28, 2018):**

Linear Regression: In-depth study of linear regression and its real-time applications.

Logistic Regression: Exploring logistic regression for classification tasks.

#### **Day 3 (August 29, 2018):**

Decision Trees and Random Forests: Understanding decision tree algorithms and ensemble methods.

Clustering Algorithms: Introduction to clustering algorithms like K-means and hierarchical clustering.

#### **Day 4 (August 30, 2018):**

Natural Language Processing (NLP): Techniques and applications of NLP, including sentiment analysis and text classification.

#### **Day 5 (August 31, 2018):**

Neural Networks: Fundamentals of neural networks and deep learning.

Convolutional Neural Networks (CNNs): Exploring CNNs for image analysis and real-time applications.

Day 6 (September 1, 2018):

Guest Lectures: Expert speakers sharing insights into the latest research and industry applications of ML.  
Hands-On Workshops: Practical sessions on implementing ML algorithms in real-time projects.

Throughout the program, we had the privilege of attending informative sessions, participating in discussions, and engaging in hands-on workshops. These activities deepened our understanding of ML and its real-time applications, enabling us to apply these principles effectively in both teaching and research.

We extend our heartfelt gratitude to the management and principal of GIET(A) for their unwavering support and encouragement. It is through their commitment to faculty development that we had the opportunity to participate in this prestigious Faculty Development Program. Such initiatives are instrumental in enhancing the knowledge and skills of faculty members, ensuring that we can provide the highest quality education to our students.

The "One-Week Faculty Development Program on Machine Learning and Its Real-Time Applications" was a transformative experience for our group. We are thankful for the opportunity to attend and are confident that the knowledge and insights gained during this program will significantly contribute to our professional growth and positively impact the quality of education at GIET(A).

CFD has a full form of Computational Fluid Dynamics, but its scope is not limited to only fluid dynamics. So, when we say computational fluid dynamics, we essentially mean computational transport phenomena, which involve computational fluid dynamics, heat transfer, mass transfer or any process which involves transport phenomena with it. We will come into that in more detail subsequently.

This course provides a simple understanding of Refrigeration and Air-conditioning fundamentals. Ideally suited to those with a little or no knowledge of the subject. The course consists of different refrigeration cycles and understanding of psychrometry and psychrometric processes used for the purpose of air-conditioning. Further, the comfort air-conditioning and indoor environment health are also addressed in this course.
