Brief Report of the Event

Massive Open Online Courses (MOOCs) are free online courses available for anyone to enroll. MOOCs provide an affordable and flexible way to learn new skills, advance your career and deliver quality educational experiences at scale.

Millions of people around the world use MOOCs to learn for a variety of reasons, including: career development, changing careers, college preparations, supplemental learning, lifelong learning, corporate eLearning & training, and more.

MOOCs have dramatically changed the way the world learns.

Certifications are designated credentials earned by an individual to verify their legitimacy and competence to perform a job. Your certification is typically displayed as a document stating that as a professional, you've been trained, educated and are prepared to meet a specific set of criteria for your role. This statement is awarded only after you've passed the proper assessments administered by a recognized third-party credentialing institution.

Professional certifications can help individuals advance faster in their careers, especially in highly-specialized industries such as human resources, accounting or information technology. While not all certifications are created equal, they do provide assurance of professional competence in tandem with a professional degree or work experience.

Concluding remarks on the Event

The Aim behind conducting this program was to bring awareness among students about MOOC and Certifications . In the present scenario its very important that students do some extra courses other than their curriculum to maintain pace with the daily changes coming in the market.

The program was well received by the students.

Godavari Institute of Engineering & Technology

The Web Designing with React is an online course from APSSDC & Department of CSE, GIET(A) to advance students with the latest web designing trends alongside the hottest technology that is simple and easy to learn. This course will start with training the students in designing basic web pages, creating user-friendly website pages, styling, and animations for the web pages, and to make students an expert front-end web developer. From this course, students learn the concepts of HTML, CSS, JavaScript, Bootstrap, and ReactJS.

Brief Report of the Event [Seminar/Workshop/Conference/Guest Lecture etc.,]

Background : Workshop on **WEB DESIGN USING REACTJS.**

Objectives of the program : -To enable to use various React features including components and forms
-To enable to implement a functional front-end web application using React
-To enable to use Reactstrap for designing responsive React applications

Organization of Event : APSSDC & Department of CSE, GIET(A), Rajamahendravaram

For whom : 3rd year students of CSE

Topics to be covered : Git and Github, HTML5 & CSS3, Bootstrap, Working with Web Server (Google Chrome), React JS, Introduction to React HOOKS and Redux.

Organizing team : APSSDC & Department of CSE, GIET (A)

Concluding remarks on the Event.

With knowledge of CSS and HTML, you can build visually appealing, interactive websites without relying on website-building tools that come with lots of pre-packaged restrictions. The HTML and CSS Workshop takes you on a journey to learning how to create beautiful websites using your own content, understanding how they work, and how to manage them long-term.
